

FOR SALE

GRUMMAN TRAVELER AA5

This Airplane is one of a kind. It has been restored back to a condition better than new. Due to the low airframe hours and that the aircraft has been repainted summer 2006, the aircraft condition is excellent (No corrosion!).

It is a rare and unique opportunity for a private pilot, or group of pilots to own a fine Grumman for cheap flying. It operates with very low maintenance, operation and insurance costs. It is easy to fly, with light control forces.

Also for a professional Flying School it is a great opportunity to own an aircraft that can generate money for it's business. **NO VAT!!!**
